**RESPONSE TO NOTICE TO COMPLY WITH REQUIREMENTS FOR PATENT APPLICATIONS CONTAINING NUCLEOTIDE SEQUENCE AND/OR AMINO ACID SEQUENCE DISCLOSURES**

Sir:

In response to the Notice to Comply with Sequence Requirements mailed April 12, 2007, please replace the paper copy of the sequence listing and the computer form previously submitted with the attached substitute sequence listing and the readable form of the substitute sequence listing submitted concurrently herewith.

The Examiner has indicated that the application fails to comply with the requirements of 37 C.F.R. § 1.821 through 1.825 for the reasons set forth in detail in the Notice. In particular, several formatting errors in the sequence listing have been identified by the Examiner. Applicants have amended the sequence listing to correct these errors. No amendments to the sequences disclosed in the application have been made. Because the amendments to the sequence listing address formatting issues and the sequences themselves were part of the application as originally filed, it is submitted that the amendments, made in accordance with 37 C.F.R. § 1.825(a), included in the substitute sequence listing do not constitute new matter.

I hereby state that the substitute copy of the computer-readable form, submitted in accordance with 37 C.F.R. § 1.825(b), is the same as the amended sequence listing on paper.
